The Stillwater City Commission is sponsoring an informational meeting for residents of the area identified by the Oklahoma State University Master Plan to be included in a proposed "Athletic Village." Attorneys affiliated with the Payne County Bar Association, local real estate appraisers, and tax accountants will be present to answer questions about property acquisition, valuation, and the eminent domain process. Representatives from Oklahoma State University Administration have also been invited to attend and respond to questions.

It is anticipated that the Mayor and a majority of the City Commission will be in attendance; however, they will not collectively participate or discuss City related business at the meeting. All interested persons are invited to attend.
